

October 2020 Joyce Bishop

- Went to P & C cemetery
- saw posted sign
- to one small shephard's hook off Brenda's grave put large one behind memorial stone
- Back home called rec. dept. to inquire on what was procedure cause rec. dept. took care of cemetery as far as I knew
- spoke to Denise O'Grady on the head and they said as long as it was on the stone and hook behind stone should be okay! Gave me Bud's number.
- Called Bud Rollins. No return call.
- Nothing on ground since vase is also mounted on stone.
- Went back the day they were clearing.
- Franks stone stripped. Even flowers in vase gone and flags, VFW marker, statuettes + stones and shephard's hook!
- Joe (+ m) directed me to Bud.
- had heated argument. I asked why he didn't call me back. He said I didn't call.
- Brought me to bushes at end of road and showed me all the "junk"! Looked through but didn't find anything.
- Went to building where he emptied 2 large garbage bags on floor! Found on statue. Shepard's hook stored in building for winter til daughter could pick up.
- Said benches weren't allowed and made someone remove them and could make me move Franks and I argued it was the whole stone and leave it alone!
- I asked about sticker on vase. He said someone took it off. It was last thing my husband did (VOTED) before he died! It was in good condition!
- No returned call to daughter but did return shephard's hook
